

# Eucharistic Miracles of BUENOS AIRES

ARGENTINA, 1992-1994-1996

The parish of Saint Mary in Buenos Aires has been the protagonist of 3 Eucharistic Miracles that occurred in 1992, 1994 and 1996. Professor Ricardo Castañon Gomez was called by the then Archbishop of Buenos Aires, none other than the current Pope Francis, to analyze the Miracle that occurred on August 15 of 1996.

*My Flesh is real  
food and my Blood  
is real drink.*

Photo of the sample fragment of Host which bled in 1992

It is possible to receive information on the Miracle every 3rd Friday of the month from 8:00 PM to 10:00 PM and every 4th Saturday of the month at 11:00 AM. Parish of Saint Mary, Av. La Plata 286. Buenos Aires.

Professor Castañon Gomez shows one of the fragment samples of the Host which transformed into flesh in 1992

Sample of the Host which transformed into blood in 1996

Photo which shows Professor Castañon Gomez as he begins to investigate the miracle and interviews the priests who were direct witnesses of the events. They confirmed that there had been also two pieces of consecrated Host that had bled in May of 1992. They had put them in distilled water, which unfortunately is the worst way of preserving something. They had then asked a lady parishioner who was a chemist, to analyze the bleeding Host. The lady doctor discovered that it was human blood and that this presented the entire leukocyte formula. She also said of being very surprised in having found active white blood cells, which normally are around only in the presence of an infection. The lady doctor however was not able to perform the genetic examination since in those times it was not easy to do.

In 1992, after the Mass of Friday May 1, while preparing the Eucharistic reserve, a Eucharistic minister found some pieces of consecrated Host on the corporal. Following what the Church prescribes to do in these situations, the priest had them put in a vessel of water, which was then placed in the tabernacle to wait for them to dissolve. In the following days, several priests went to check it and they realized that nothing had changed. Seven days later, on Friday, May 8, they opened the tabernacle and saw that the Host fragments had become a reddish color that looked like blood. The following Sunday, May 10, during the two evening Masses, several small drops of blood were noticed on the patens with which the priests distributed Communion. On Sunday, July 24, 1994, during the children's Mass, while the Eucharistic minister took the pix from the tabernacle, he saw a drop of

blood running along its side. On August 15, 1996, during the Mass of the Assumption of the Most Holy Virgin, a consecrated Host, which fell to the ground during the distribution of Communion, had to be placed again in a vessel of water so it would dissolve. A few days later, on August 26, a Eucharistic minister opened the tabernacle and saw that Host had transformed into Blood.
